Kallon Wishart Maths for excellent effort
Patsy Maguire English for Excellent work
Kyle Potter Computing - is making a great effort in furthering his attainment within the current coursework unit [5] (OCR Cambridge Nationals qualification)
Alfie Sandison for fantastic effort in his food theory lesson

GOOD NEWS STORIES

Paul proudly showing off his literacy work. He worked independently to create some fantastic bonfire night inspired shape poems, challenging himself to do not 1 but 5! We are all incredibly proud of how hard he worked and the fantastic attitude he has shown towards his learning this week. (Miss Hudson)

Fantastic engagement from our STAR students during their Food lesson. They used lots of different skills to make their own chicken goujons with a healthy side salad. The students also worked co-operatively to help wash, dry and put away all of the dishes; what great teamwork! (Mrs Regan-Hammond)

Value of the week:

We speak up when something is not right

Assembly Topic of the week:	Personal Development Focus:	Special Days:
Ant-bullying	Challenging career stereotypes	Anti-bullying week Children in Need

Our science department has been very busy this week

KS3 have amazed me with their maturity and dissecting skills whilst learning about the cells and tissues that make up our lungs and heart.

KS2 STAR using their impressive investigating skills to find out which crisp would make the best fuel source as part of their STEM lessons.

Year 10 having hands on experience whilst learning about the Respiratory System!

Some of our students completed their #eitc detective course just before half term – well done!

We have a number of extracurricular clubs on Tuesdays – please join us.
